

In cannabis, the smokers
are represented by two
separate yet equally
important groups..

The licensed producers
who grow the crop and
the cone manufacturers
who provide the papers.

These are their stories.

Stables Profile

The world deserves a better cone.

So three Canadian amigos got together to create something better for consumers and producers alike. Our expertise is unmatched - collectively bringing 20 years from the cannabis space.

We are the namesake of Bert Kelly's Jazz Stables - a speak easy in Chicago 1920's and later in NYC in the 1930's.

Stables Values

Quality

We are focused on providing the highest quality pre-rolled cones and blunts to our customers. In doing so we are bringing the first high quality north american hemp blunts to market. Our focus on quality extends beyond the product, making sure we're doing the best to meet your customers needs.

Cones as a Service

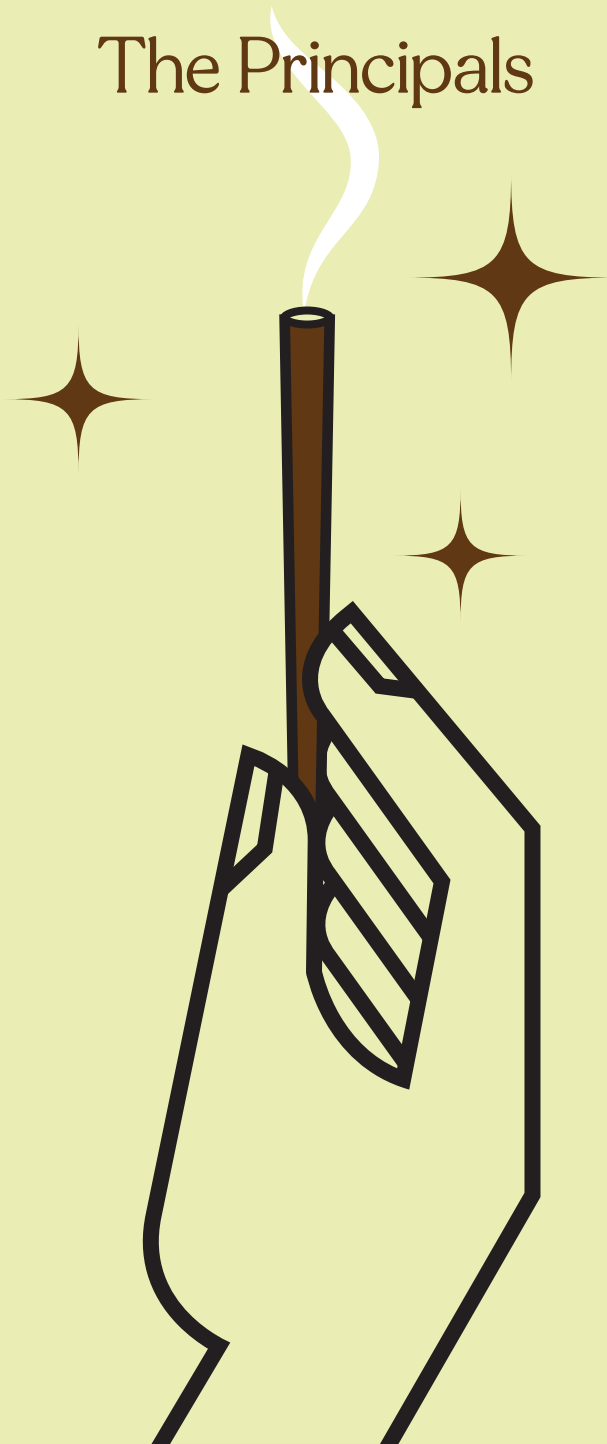

We see our product more as a service: we've know the struggles you're facing - we've lived them. Our job is done when your customers have cone in hand. So think of Stables more like a cone consultancy than simply a single commercial exchange.

Fun & Customization

Fun natured at heart. We strive for it to be a part of our process. After all we're in the cannabis business, it should be fun. You should be able to reflect your brands uniqueness in the cones you sell, That's why we're here to customize to your hearts content.

The Principals

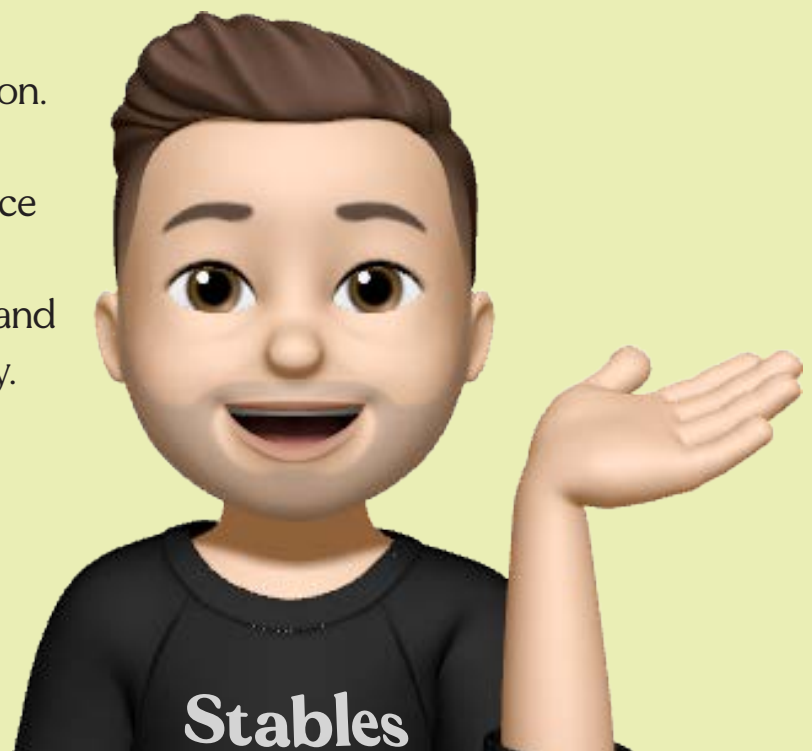

Principals

Brett Young

Founder & CEO

Brett Young is an accomplished Operations Executive and Automation Expert from the Food and Beverage and Cannabis industries. He holds 20 years of experience driving profitability and operational cost reduction in many of his past roles. Over the last six years, Brett has operated his own companies, delivering key automation technology and consulting services to the Food and Beverage and Cannabis industry. Brett's Cannabis portfolio includes over 15 million in turnkey automaton lines sold and installed, including a few Pre Roll Operations that resulted in more than 30 million joints filled and sold to the provinces. Brett prides himself on lean management, customer services, project management and execution.

Brett's passion outside of the office is the outdoors, Growing and consuming Cannabis, Cottaging and Fishing trips, especially Fall Musky.

Principals

Tyler Kibler

Founder & COO

Tyler Kibler is an accomplished inventor, trailblazer, collaborator, innovator, and farmer. Focused on building a self-sustaining, soil-enriching licensed hemp farmstead, Kibler's passion is Cannabis. Since his first cannabis invention in 2016, he's never looked back. Today he holds an array of cannabis-related patents and launched first-to-market products in Canada that have helped shaped the industry and enriched the lives of many consumers.

Tyler's approach is always client first, whether an end-user or process integrator, an internal collaborator or external customer, his focus is their focus. Having scaled multiple Licensed Producers to manufacture over 1 million pre-rolls per month each, he's a knowledge powerhouse when it comes to making the perfect pre-roll at scale. From Dog Walkers to Cannagars, and dried flower to terpene-enriched extract pre-rolls he's a true pre-roll professional.

He is happiest with his wife, Annaliese, sharing a fine pre-roll in their hot tub overlooking the farm, and watching the animals roam.

Principals

Bruce Giovando

Founder & CMO

Bruce has an extensive background in creative direction and entrepreneurship. Notable clients include: NASA, MTV, Red Bull, Rocky Mountain Bikes, Google and author/artist Douglas Coupland.

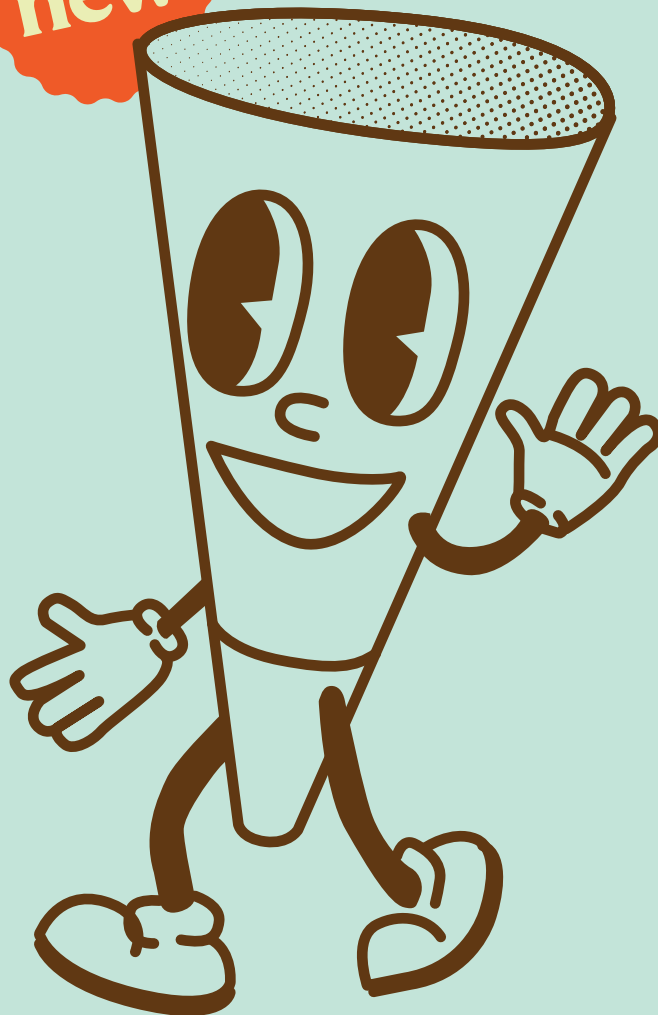

Recently he worked with Tyler at Aurora Cannabis as the Director of Innovation and Best Practices. An early hire through the acqui-hire of his startup Canlio he brought many of Aurora's initial product offerings to market, developed the first mobile app for medical patients (bringing in excess of 30 million revenue) and realized millions in cost savings applying lean manufacturing principals. A contributing member of the GSI Cannabis work group, he improved the standards for packaging and barcoding in the medical and recreational cannabis space.

Bruce is passionate about entrepreneurship, the outdoors, and technology.
